The evaluation criteria are presented in the order of their priority/importance:

\*Title III priorities are met (services associated with access to services, in-home services, and legal assistance)

\*Older individuals with greatest economic need (GEN) and other individuals with greatest social need (GSN), low-income minority (LIM) individuals, Older Individuals residing in rural areas (OIRA) are served;

\*Priority issues are addressed;

\*Potential benefit to cost is great; and

\*Probability of program/service success is high.

Measures: 3 = Strong Indication/Expression  
 2 = Moderate  
 1 = Slight  
 0 = Not Indicated

---

The following indicators are used:

1. **Title III-B Priority**

Title III-B of the Older Americans Act contains service priorities in the areas of Access, In-Home, and Legal. As such, Assessment/Screening, Assisted Transportation, Caregiver Support, Case Management, Chore, Day Care, Friendly Visiting, Home Modification, Hospice, Housekeeping, Information & Assistance, Legal, Congregate Meals, Home Delivered Meals, Money Management, Nutrition Counseling, Outreach, Personal Care, Respite, and Transportation receive 3 points each for being Title III priority services. Follow up Assessment services received 2 points as services are a vital part of the HCOA client tracking system and considered vital for access and continuity.

2. **Greatest Economic/Social Need, Low Income Minority, and Older Individuals Residing in Rural Areas**

Older individuals with greatest economic need (GEN) and other individuals with greatest social need (GSN), low-income minority (LIM) individuals and older individuals residing in rural areas (OIRA) are mandated to be given preference by Title III regulations. Measurement is based on the extent to which service addresses isolation, physical or mental limitations, racial or cultural obstacles, or inadequate income.

3. **Priority Needs**

Measurement is based on the extent to which service addresses Hawaii County's prioritized needs (i.e., home and community-based care services, community planning efforts, workforce development, caregiver support, and partnerships.)

4. **Benefit Cost**

Measurement is based on the potential benefit to cost.

5. **Probable Success**

Measurement is based on the probability of program/service success.
